

GBNBA Willow Water or Seed Container (1st part)

ZOOM Weave-In

Saturday, February 13, 2021
from 10:00 am – 4:00 pm

Learn to make a natural willow water or seed container similar to the one to the right.

Members will need to provide their own willow materials.

This class will be held on the Zoom website. You will need to download the app and Leah will give out the link & password so members can enter the class. Check if your membership is up-to-date. Email Leah to check, leahbee2014@gmail.com . (Find membership form at www.gbnba.org)

Please have the following items so your experience will be successful:

- A small tub/bowl to soak willow threads.
- Small paring knife, awl, clippers or scissors.
- Spray bottle and/or sponge.
- An Apron and Lap hand towel(s) are helpful.
- About 150 fine scraped willows will be needed. 1/8" at base.
- About 20" in length, measure from the tip.

Leah Brady, Seed container

Our goal is to revive, enhance, and promote the traditional art of basket making handed down throughout the Great Basin Region. The Great Basin area stretches from the South area of Death Valley, California, up to the middle of Oregon, from the Sierra Mountains clear across to the Great Salt Lake. All tribes within the Great Basin region including the Washoe, Shoshone, Northern and Southern Paiute, Goshute, Ute, Bannock, Mohave, and Chemehuevi tribes. A need to strengthen and retain our traditional art of baskets is a must, and we gather here today to call ourselves the Great Basin Native Basketweavers Association, with the intent and purpose of keeping the baskets alive for another thousand years. – January 2000
